There was my confidence, long time ago  
I believed god would know, how things had to go  
There was my consequence, when I was rich  
I shared my love, with her  
**All I needed was some time**  
**All it took was some time**  
And soon I notice, what I had to know  
It was a simple answer, god has shown  
**Isn't it good to be alive (2.x)**

I felt so free, so soft and warm  
A new life, in me was born  
I cried with the rain, I laughed into the sun  
Nowhere was pain, troubles had gone  
**All I needed was me**  
**All I had was me**  
And then the moment, when I saw her  
There was magic, in the air  
**Wouldn't you go with me (2x)**

Now I'm feeling, so easily  
Flowers an butterflies, are around me  
There's life, in every stone  
There is hope, 'though I'm alone  
**All it needs is some time**  
**All we need is some time**  
I believe, in my way  
So I want you, with me to stay  
**Wouldn't you go with me (2x)**
