

# Drums in the rain

(Text: Deutsch, Musik: Deutsch)

**Hm/D/E/F#**

Thinking back trough the years  
My mind is getting still  
People 're coming near  
They had filled my life with fill

I've lost so many friends  
They've gone other ways  
We were holding each other hands  
Whatever life had played

**D/G/D/A**

**They all 're beating in my heart  
Like drums in the rain  
I've lost so many just apart  
And it fills my heart with pain**

Holding tight the memories  
When we cried and laughed  
Together we've sailed so many sees  
Our minds were flying all above

We 've learned about love and pain  
About all the things life may bring  
How I'd like to live these days again  
All those lovely things

They all ...

Now I'm not alone  
Life is running its way  
The wind is still blown  
And I've understood to pray

Friends think back to me  
I still love you too  
The memories will ever be  
What ever I may do

They all ...
