

Feel

I was sitting so alone
A candle was burning she said
Son don't you know
There is someone out there
Take your time
And you will find someone, who
You can give all your love to

The next early morning
I got up silently and went
To my place
Hidden in the forest
Got down on my knees
Prayed to my god, he said
I'm on your side, believe
And follow your own way

Someone is on my side
I feel so saved, I say
I'm tired, could fall asleep
Close my eyes
Dream my whole life
And I follow the bright light
That guides me away
