

Harmony

(lyrics: Deutsch, music: Deutsch)

A#m/C#/G#/A#m

What else should I say
You have taken my heart away
When we talk talk talk
Everything is clear for me

I see the light in your eyes
I see the fire burning
When we talk talk talk
You take my breath away

F/D#m/A#m/G#

**All the things I said to you
Are nothing but my love is true
Let us live in harmony (4x)**

Lonely nights alone
My chest full of stones
And they hurt hurt hurt
Please take them away

I hate the thought of losing you
To lose the friend in you
And I love love love
I love you so

Refrain:

So many other girls
Pass my way every day
And I try try try
To love one of them

In my dirty haze
I see your face
No one can take take take
The place of your smile

Refrain:
