

I want to be me

(lyrics: Moschitz, music: Moschitz)

(G#/A#)

My soul is hurting, why don't they accept
It needs to be itself, it wants to be free
No rules - it tells me I want to be free
I want to be with you, just with you
to guide you - to be the answer

Refrain:

(G#/C#/D#/A#)

I want to be me - I want to be free
I want to be with you - to make you free
You are the one that can listen to me
You are the one that can be free with me

Bridge:

(F/C/A#/C#)

I'm your soul - let us be free
You and me - free (3x)

Just leave me alone, you won't capture me
Just understand, you can't change me
Don't torture me with your suggestions
I don't want to hear your empty words
All I want is to fulfill my goal

Refrain

You are making me nervous, you break the rules
Please let us now - alone, just us
Listen to your own - great soul - listen carefully
It will tell you what's right
it will love you - it will guide you to freedom

Refrain
