

## MARI-huana

(Text: Pracher, Musik: Pracher)

**C/D**

*Now you are here* - little brown and nice  
*I get so nervous and confuse* - the friends are cool like ice  
*The moment has come* - of getting big big friends  
*I want to go with you* - to other different lands

**E/D**

*I light my fire* - and I give it to you  
*You've become very hot* - and I get horny too  
*The point has come* - of no return  
*I breath again* - and again until you burn

**C/G/C/A**

**Mari-huana, you are so good to me**  
**You make me feel so good, so stoned**  
**Please let me once more be**  
**Mari-huana, you make me feel so brave**  
**When you're with me I have no fear and**  
**I feel really save**

*I saw the lands* - of my best dreams  
*You showed me things I've never seen* - before as it seems  
*But now you're gone* - I can't accept this  
*I try to bring you back to me* - I never will you miss

*Gratefully I know a place* - where I can find you  
*A place where everybody meets* - I have to go to  
*I leave the apartment* - with just one cent  
*I will try to find you* - to bring again these lands

Mari-huana

*I am at the place* - where I can get you  
*I see those people* - and I feel really good  
*But then those people tell me* - I've not enough to pay  
*I guess I look scared* - once more I pray

*Now I've got the money* - 4 people died  
*Several are injured* - I'm happy but not proud  
*Got you again* - I love your smell  
*This time it's a bit strange* - well ...

Mari-huana

*Now I'm dead* - and I'm in hell  
*You are the thing I really miss* - I never will you smell  
*Maybe for other* - I haven't done such  
*Things but for you* - I haven't done much

*My life was really boring* - especially with you  
*You made me sick* - I was such a fool  
*But now it's over* - it's over, I'm out  
*I never want to see you* - and that makes me proud

Mari-huana ...
