

Tears in the rain

A/E

Thinking about good times
Thinking about bad times
I'm thinking about you
When you left me
In the early morning
I was feeling so blue

F#/D/A/E

**All those moments will be lost in time
all those moments like tears in the rain**

Pretty good time
We had together
But now it's all over
To much laughter
I was flying
But now I get sober

Refrain:

But then again
I get up
Starting a new way
Another morning
Awaking without you
And now I can hear me say
